Permits for Temporary Placement of Dumpsters

AN ADDITIONAL PERMIT AND FEE IS REQUIRED FOR PLACING A DUMPSTER ON THE STREET OR AFTER 30 DAYS OF PLACEMENT ON PRIVATE PROPERTY. However, a City *License* is not required if hauling construction debris only (not mixed rubbish).

City Ordinance 845.01 Definition. For purposes of this section, “container” means a dumpster, collection bin, collection box, tub, roll-off box, roll-off container, portable storage or any other receptacle used to store construction, remodeling or demolition debris or any goods or materials being temporarily or permanently stored.

City Ordinance 845.03 Permit Procedure. No person shall place a dumpster on any public right-of-way without first obtaining a permit from the City Engineer.

City Ordinance 845.05 Permit application. An applicant for a permit shall provide the following information:

- a) The name and address of the applicant;
- b) The location of the project to be undertaken;
- c) The length of time for which the permit is needed;
- d) The type of debris that will be deposited in the dumpster;
- e) Proof that the applicant has all necessary licenses required to perform the project; and
- f) Any other information deemed necessary by the City Engineer.

If a dumpster is placed in the public R.O.W. and a City License is not in force, a certificate of insurance is required as follows;

City Ordinance 845.07 Insurance. A permit holder shall maintain or cause to be maintained the following insurance with respect to the container.

- a) public liability insurance in an amount of not less than \$1,000,000 for injuries including accidental death to any one person, subject to the same limit for each occurrence; and
- b) property damage insurance in an amount of not less than \$500,000 for each accident and not less than \$1,000,000 aggregate.

The insurance required by this subsection shall protect the city from defense costs and claims for damage for bodily injury, personal injury, including accidental death, and claims for property damage. **This certificate of insurance must be submitted prior to placement of the dumpster and must state the City of Robbinsdale as “Certificate Holder” or Additional Insured” on the certificate.**

City Ordinance 845.09 Condition of Dumpster. Dumpsters must be well-maintained and in good working condition, display the name and telephone number of the owner of the dumpster company, and be suitably supported at each contact point to prevent damage to paved surfaces. Dumpsters must be covered when not in use if the material inside is easily airborne, poses a hazard, gives off odors or is otherwise offensive. Debris generated by the project must be placed inside the dumpster and may not be placed on the public R.O.W. or in any place in which such debris interferes with use of the public R.O.W.

City Ordinance 845.11 Warnings required. The dumpster shall be properly reflectorized at all times.

City Ordinance 845.23 Violation of this section. The city may remove any dumpster placed in a public right-of-way in violation of this section. The owner of the dumpster or the person placing it in the public right-of-way shall pay to the city all costs, fees, penalties, or other expenses incurred by the city in removing the dumpster, and storing and disposing of the dumpster and its contents. In addition the city shall charge daily storage fees in such amount as the city council may from time to time establish by resolution and list in Appendix B. If the dumpster is not claimed within 30 days by its owner or the person responsible for placing it in the public right-of-way, it may be disposed of as abandoned property, but such disposal shall not diminish the

responsibility of the owner or the person responsible for placing it in the public right-of-way to pay all amounts due.
